1 Academy Place, College Town, Sandhurst, Berkshire GU47 0AB  
Mobile: 07730 041609 Email: jbjackson247@gmail.com  
DOB 16.12.2002

## Personal statement

---

I am a conscientious and motivated individual who has achieved excellent academic results. I have excellent communication skills, both verbally and written, exhibiting professionalism when dealing with a variety of people. I am very thorough and accurate with a good eye for detail, and I have a very enthusiastic and cheerful disposition which would be ideal in a customer facing environment. Furthermore, I have a great desire for personal education and involvement into the technology/software development industry where from my first experience to my last, I will keep on learning.

## Key Skills

---

- Proficiency in all areas of Microsoft Office, including Excel, Word and PowerPoint
- Excellent communication skills, both written and verbal
- Precise attention to detail
- Excellent time management and personal organisation skills
- Proficiency in Front End development software (HTML/CSS/JS)
- Growing ability and education in Back End systems and languages

| • Government and Politics | A | August 2021 |
| • History                 | B | August 2021 |

## Experience

---

**June 2017****LVS Ascot Junior School - Volunteer**

I spent time working in the school helping teachers with displays, filing, moving furniture and equipment as well as hearing children read and undertaking practical activities with them alongside teachers.

**June 2019****Camps International - Volunteer**

I spent a month out in Cambodia during the summer with Camps International, undertaking community projects such as building schools, water filtration and sanitation infrastructures, as well as working with the local people teaching school children English.

**March 2020****McDonald's Ltd – Employee**

From March 2020 to present, I am an employee of McDonald's Ltd and have developed strong skills and experience involving dealing with customers, teamwork and time management. Due to these skills, I was promoted to Customer Care only after 10 months of employment and have been offered an increased position to the Customer Experience Leader due to my customer expertise.

**December 2021****Code Institute – Full Stack Software Development Course**

From December 2021, I have been working towards and attained, upon completion Q4 2022, a diploma in full stack software development. Whilst not completed, I have passed the project assessments for the Front End Assessments using HTML, CSS and JavaScript. Furthermore, the course is allowing me to part time grow my knowledge and practical coding skills in the Front End and Back End.

## Hobbies & Interests

---

I enjoy going to the gym and strength sports, along with playing poker, both of which train my body and my mind in fun ways. Moreover, I very much like to spend my time learning a plethora of subjects in further detail from my schooling including history and science, however technology, and my fondness for software development usually is the subject of this online reading. Lastly, I would say my primary interest overall is Web 3.0, blockchain technology and AI. This includes cryptocurrency and NFTs, which further along in my technology sector career I would love to be working on the forefront of innovation with these technologies.
